PROFESSIONAL SUMMARY

I'm Henry Navntoft, a dedicated web designer and front-end developer who believes in the simplicity, clarity, and functionality of web design.

With a young and unbiased perspective, I focus on making designs more effective and user-friendly. Passionate about enhancing web experiences, I aspire to develop digital spaces that are both intuitive and visually captivating.

My experience in front-end development and digital marketing, combined with my academic background in Multimedia Design, empowers me to create solutions that meet business needs and exceed user expectations.
